

HLF Vittoria – Tall Cup

Revolutionary multi-boiler technology

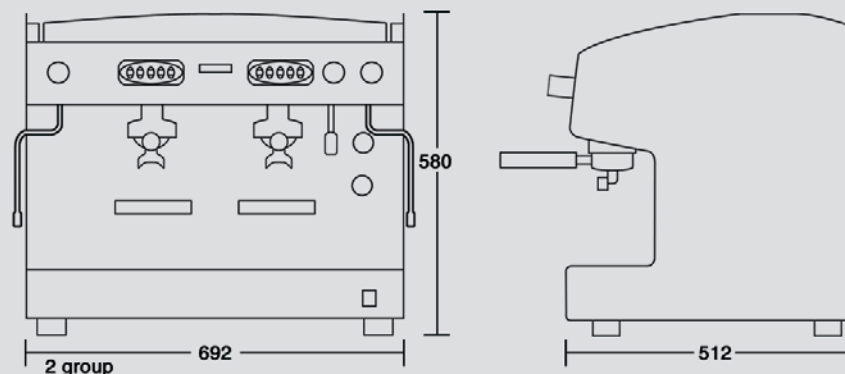

The HLF Vittoria combines the latest brewing technology in a classically styled full stainless steel body. Computer controlled temperature settings at both the boilers and their group heads, each of which comes with it's own element and probe, make sure temperature stability comes as standard. Utilising these individual boilers for each group head, all with pre-infusion, the HLF Vittoria offers coffee perfection with every shot pulled.

KEY FEATURES

- Classic stainless steel design
- Individual boilers for each group head and a separate steam boiler
- Independent temperature settings for each group head and it's boiler
- 2 and 3 group models
- Tall cup model allows for larger takeaway cups
- Digital Screen with shot timer
- Cup warmer means drinks stay hot for longer
- Fold down cup tray to stop spills when making espressos
- Boiler water level gauge / automatic boiler water level
- Moveable hot water tap
- Two swivelling steam arms
